**A brief chronology of events on the planet Earth from 18,344 BC to the present**

**Part 1 – before 0 A.D.**

<b>Time</b>	<b>Events</b>
<p>The dates indicated here are approximate and calculated using a special method, since at that event moment, the time parameters were completely different. For example, for the planet Earth - a day was 48.64 hours, a year 864 days.</p>	<p>Here is a summary of what happened. You can find more details on the website in the article "On flora and fauna" and the works "Fundamentals of the formation of mankind" part 1.2.</p>

As a result, the planet Phaeton eliminated 2 moons, 11 main objects, 1,200 autonomous attack objects. After destroying 2/3 of the enemy star fleet, it itself became a meteorite belt.</li> <li>• The Moon, the Sun and the satellites of the planets of the Earth system are part of the intervening star fleet.</li> </ul>

<p style="text-align: center;"><b>6534 BC to 6234 B.C.</b></p> <p style="text-align: center;"><b>300 years</b></p>	<ul style="list-style-type: none"> <li>• Preparatory process of software resets of a managerial nature.</li> <li>• Cleansing from the consequences of ongoing experiments.</li> <li>• The surface of the Earth was filled up to <math>h = -1,200</math> m (relative to the current level), on the formed surface 8,640,000 energy buses of interpolar direction were laid (for geographers, these are meridians, although there are not 360, but several more), connecting all Control Complexes and planted objects.</li> <li>• Nodes (control servers and energy distribution servers) were formed.</li> <li>• After this fine engineering, the entire complex “assembly” was filled up to <math>h = -100</math> m.</li> <li>• From the hydrophone layer of the atmosphere, huge masses of water 1,500 m high fell down on the Earth and from that moment, sea water was formed for the first time - this is the “<u>global flood</u>”.</li> <li>• The surface of the Earth has taken forms close to modern ones.</li> </ul>
<p style="text-align: center;"><b>3761 B.C.</b></p>	<ul style="list-style-type: none"> <li>• Many more fleeting experiments were carried out with the resulting people in order to bring them closer to the appearance that Man had before the intervention of the Earth.</li> <li>• By mid-September 3,761 BC. this process of their figurative similarity was completed (meaning the tale “about the image and likeness” in the Bible and other legends).</li> </ul>
<p style="text-align: center;"><b>3500 B.C.</b></p>	<p style="text-align: center;"><b><u>The fourth stage of violent intervention</u></b></p> <ul style="list-style-type: none"> <li>• The Management System, in accordance with the location of the "tents" (the boundaries of the ethnic groups), began to bind them to the atmospheric layer No. 2.</li> <li>• Obtaining the base radiation frequency for each ethnic group, relative to which the tuning re-formation of the atmospheric layer No. 2 took place. The number of radiation frequencies is more than 100.</li> <li>• Using the radiation frequency for each specific ethnos, their number and number in each ethnic group was brought to a Program reset value, the primary lifestyles (culture) and the habitat boundaries of this group were introduced and acquired with reference to</li> </ul>

	<p>atmospheric layer No. 2. The habitat boundaries no longer had a spherical shape.</p> <ul style="list-style-type: none"> <li>• Restrictions were imposed within each ethnic group, preventing different ethnic groups from merging, i.e. mixing. This was framed by a figurative and behavioral introduction (concept and awareness) of various traditions and beliefs.</li> </ul>
<p>2000 B.C.</p>	<ul style="list-style-type: none"> <li>• Creating the brain of the atmosphere (from -2200 meters to 12,400 meters). New frequencies were introduced into the original structures of the atmosphere.</li> <li>• The strictly symmetrical structure of the dodecahedron atoms of the atmospheric lattice, themselves were destroyed (some bonds with the icosahedron were removed). Each removal of such a bond led to the creation of a new chemical element. The Caucasus Complex was the coordinator of the work on creating the brain of the atmosphere, therefore all the largest and most famous deposits are around the Caucasus.</li> </ul>
<p>2000 BC – 1605 B.C.</p>	<ul style="list-style-type: none"> <li>• The period of creation and natural improvement of the "shirt" (the body of people).</li> <li>• Until that moment, the Control System worked out all the processes of energy biogenesis of the organism in the image of captive humanoids of a person under the protection of type 440 objects. The settlement was organized in the "tents" zones, primary fragments of communication cultures with the changed environment were developed and habituation to new living conditions was practiced.</li> <li>• Primary skills and elementary improvised tools were mastered, simplifying and facilitating physical labor in the preparation of food, clothing and shelter. This time should be defined as a period of purely virgin natural values. All values were programmatically determined and dictated by type 440 objects, orienting the entire existence of people towards the preparation and improvement of the body to a state suitable for setting the functional future brain genotype 421. Type 440 objects gave the ability of logical judgment and assessment of the observed reality, the ability to receive and transmit conscious information in the form of speech. In total, they gave 384 "languages".</li> </ul>

	<ul style="list-style-type: none"> <li>• Under the control of the Andes Complex (a separate Maya settlement), a temporary specific task was worked out - testing individual mantissas of future brain genotypes. This is the whole incredible secret of the Mayan.</li> </ul>
1605 BC – 882 B.C.	<p style="text-align: center;"><b>Formation of brain genotypes.</b></p> <ul style="list-style-type: none"> <li>• Under the control of the Ararat Complex (Caucasus Control Complex) in 1605 B.C., brain genotype 421 was formed. This was the first successful attempt by the interventionist system to install its (spider) brains in the “shirt” of people. The region of coverage of such an experiment was Asia Minor and Greece. Process Control Center - Jerusalem.</li> </ul>
882 B.C. – 0 A.D.	<ul style="list-style-type: none"> <li>• Formation of brain genotype 422 under the control of the Kazbek Complex (Caucasus Control Complex) in the territory of the eastern and southern Caucasus, Central Asia and eastern Asia Minor.</li> <li>• The active period of human evolution, associated with the possession of "one's own self", open confrontation between people and the natural environment - the development and conquest of the World. The entire sphere of management and support was provided by two Complexes - Ararat and Kazbek. Developing the advantage of one brain genotype, provided and accompanied the acquisition of dominance over the other.</li> <li>• A sharp leap in the development and awareness of new social values. The level of achievements in their development, the acquisition of new structures of social organization, management and arrangement of a more perfect life, etc., can still be the subject of imitation in their individual fragments.</li> <li>• Rapid rise in the development of many areas of culture.</li> <li>• An active process of more expressive territorial definitions and boundaries for each brain genotype began.</li> </ul>

## Brief chronology of events on planet Earth

# from 0 A.D. to 2009

Part 2 - shows how the process of development of Alien SU brain genotypes

Time	Events
<p>0 year – 1433  spring 385</p>	<p><b>Continuation of the program for the development of brain genotypes and the introduction of other programs: The Ararat Complex created the first brain genotype 421 in 1605 B.C. The Kazbek complex created brain genotype 422 in 822 B.C. The Elbrus complex created genotype 423 in year 0, having completed the formation of the first group, i.e., brain genotype 42. Brain genotype 423, as a more perfected one, was the basic basis for further development of possible additional executive functions of individuals of a higher managerial order and further improvement of brain genotypes: In 1433, the first brain genotype 441 was obtained (control - Alps 1 complex). In 1841, the first brain genotype 442 (Alps 2) was obtained. In 1990, the first brain genotype 461 (California) was obtained. By 2012, the second cycle of formation was to be fully completed, i.e., completed work on the formation of all individuals of the second group, i.e., with brain genotype 46. The first cycle was completed in year 0, or rather 0000-01-17 at 02:11.</b></p> <p><b>The main task of the Control System was to create such biostructures, the brain of which must fully comply with all Program settings of the System and be fully controllable. At the same time, the embodied management of the entire existence of individuals and the social organization of society should only be in the form of a pyramid (since this was required by the imported basic foundation when constructing control information):</b></p> <p><b>Level 1 - Moshiach (Allah, Buddha, etc.), brain genotype 481.</b></p> <p><b>Level 2 - "golden million", brain genotypes 461, 462, 463, 464, 465, 466.</b></p> <p><b>Level 3 - "golden billion", brain genotypes 441, 442.</b></p>

**The "Golden Million" are priests who manage finance, science, society and the distribution of all types of material goods and services.**

**"Golden Billion" - the production and replenishment of material goods, the preparation and provision of services.**

**The rest of the population was not required and were to be destroyed by the end of December 2012.**

**- with the approach of the year 0 of the New Era, the level of authority by individuals with brain genotype 422 has sharply declined. People-Gods began to go into oblivion at sunset, their program functions ended. People-Gods lived too short a life! The old Control System could not solve the problem of extending the biological life of certain groups of individuals, the approach to the fourth DNA Codon was not found.**

**- On 17 January, 02, at 02:11, a new 423 brain genotype was introduced by the Elbrus Control Complex.**

**- the "Reincarnation" program was introduced, i.e., the continuation of the functioning of the humanoid, which was provided by the program with the gradual acquisition of several "shirts" (bodies) for the full performance of its assigned function.**

**- the program of "protection" or properly known as "Christ" was entered. Between the material "shirt" (biostructure) and the phantom (matrix) (perhaps "humanoid"), an intermediate octave frequency of 51.5 was placed (22 frequencies in total). These frequencies provide communication with the atmosphere (cubic structure).**

**- The second function of the introduced frequencies was to ensure the process of reincarnation (the spent matrix is not thrown away, but transferred to the next shirt). Hence the symbolism of a mother with a baby . The protection system was first tested in year 0 and since that time, in each program cycle, 2 days before the installation (15:22 Moscow time), the**

	<p>protection is removed (symbolizes the death of Christ), after the installation of new frequencies, the protection with new properties is fixed and all complexes on Earth accompany the new system.</p> <p>- The process of introducing a historical episode began to form a specific state of management in the organization of people's existence - "the power of money", as a finally formed management program (<u>ritually symbolized by the crucifixion of Jesus Christ</u>), the Central server of management - Byzantium.</p> <p>- From that moment on, the main power of management influence by the Elbrus Complex was entrusted to the management tool "from the Almighty", i.e., to religious denominations. This control tool gained its full active power on Easter, 385 A.D. (<u>the phenomenon is symbolized by the crucifixion of Jesus Christ</u>).</p> <p>- A fundamentally new basic basis of spiritual values was introduced - religion, which had acquired the main managerial burden. Religion in all variants of confessions had become not only the basis of all spiritual, but also subjective values, i.e., the main effective tool in the implementation of functions by executors from the Conceptual Power and was the main link in determining the structure of statehood, power and law.</p> <p>- In 1433, the program stage of development and improvement of the entire sphere of management, covered by its executive-controlled embodiment through processes in which the entire three-variant brain genotype 42 was involved, was completed. The technical, energy-informational and other perfection of the Caucasus Control Complex, in conjunction with the rest of the Complexes and Systems, as well as its functions in building up and complicating the control process through the brain genotype 42, had been completely exhausted in their capabilities, development and long-term adaptation of brain functions.</p>
<p>1433 - 1841</p>	<p>- A significant contribution to increasing the role and giving a different level of program significance in terms of the managerial influence of the "power of</p>

money" appeared from the moment the brain genotype 441 was introduced, executed by the Alps 1 Control Complex in the spring of 1433. It was during this period that individuals of brain genotype 441 acquiring control functions that the balance of the shattered power of authority was maintained at the expense of the "power of money" and authority on the basis of an obsolete religious methodology of values surrendered its leading powers forever. Giving the brain additional mantissas of a different order allowed the representatives of the 441 genotype to acquire completely different states in everything. - A sharp leap took place in "scientific" knowledge, which led to the practical application of emerging technologies for the introduction of machines in all spheres of human existence. The Alpine Complex significantly complicated the process of forming the controlling program substance of the state of the Ebr Mind of that period. As a result, a special awareness of the surrounding "objective reality" by individuals of genotype 441 provided them with the opportunity to embody the program process of managing, being in a new form. - Realizing themselves as especially "chosen ones and knowing some deep mysteries of this World", they framed their circle with sacred halos of various orders and clans, secretly subduing under their influence all the power of authority in the sphere of government of the leading countries of the world. - Activation of the process of forming an organized financial system and bringing it into a state of complete control under brain genotype 441, with the involvement of specialists of other genotypes, discarding all previous real authorities aside. - The specified genotype in a short period managed to acquire special control functions in society, neglecting all the rules of law and seizing ownership and control in everything related to the organization of people's existence, completing the process of giving "the power of money" as a particularly significant power function of the management process. - With the introduction of a new brain genotype, both previous ones were not eliminated. They were subjected to constant programmatic and functional correction and development, adapting their position and involvement in executive processes in cases where their specific functions were required. Including the development

and improvement of the value base. - 421 genotype was used to improve the processes of exchange, the primary development of the system of value equivalents, as an embryo in the phenomenon of future financial systems in large areas where they did not previously live and did not organize such a system. - The previous brain genotypes were replaced by a small, but smart, prudent and very cruel genotype, both in decision-making and in actions to implement them. In a short time, representatives of this genotype gained a leading and powerful position in all influential areas that determine both the organization and management of the entire existence of society.

- Being of a more subtle logical order and a higher level of functional ability in receiving managerial information, representatives of this brain genotype, not having a large representative mass character, managed to break most of the established stereotypes of value methodology, structures of statehood and law in a short time and began, almost simultaneously, the processes of social reorganization of societies over a large area,

- Property values acquired many new forms and significantly changed in scale, the active development of the rules and laws of the new exchange began, society received an impetus in the development of banking and the formation of elements of the global financial system, the provided volumes of circulating substitutes gained a stable firmament and influence on all processes of being. The control, possession and use of a convertible substitute (gold) was taken by representatives of 441 brain genotypes.

- All subjective values and their basis changed under the dictatorial influence of sacred orders and clans. The construction of powerful social structures of society, the formation of management systems (economy) on the basis of the slavish use of the “economic man”, the program building up and unsolvable social problems - this was the way to harden and develop the functional capabilities and abilities of brain genotype 441. It was a difficult stage

	<p>in gaining the ability to manage in harsh and difficult conditions, in the emerging age of machines.</p> <p>- In a short historical period, through the practical activities of the performers of brain genotype 441, the beginning of the implementation of the program process of the division of labor was laid, which subsequently played an extremely important role in determining the "path of development of civilization."</p> <p>- By the end of 1840, in the sphere of managing societies, the leading position of individuals of brain genotype 441 began to sharply decline, conflicts within clans and secret orders became more active. Disunity and conflict significantly affected the decline and effectiveness of all their power functions in societies. The effect of the actions and the legitimacy of the perpetrators decreased significantly. The Control System was preparing for the introduction of a new program genotype, and the World was destined for a bloody historical episode in the next century and a half;</p>
<p>1841 – 1990</p>	<p>- By the beginning of 1841, the program stage of development and improvement of the controlled state of development of brain genotypes 441 came to an end. A new period of development of the substance of the state of the Ebr Mind began. To find harmony with the program settings of the current state of the Goal Vector, a transition to the next stage of brain development was required, i.e., the introduction of another new genotype.- In this regard, during the Easter period of 1841, the Alps 2 Control Complex was activated, which, by introducing brain genotype 442, symbolized the beginning of the fourth stage of the era of digital information civilization of human development, namely 1841 - 1990, - as a stage of hegemony of the bloody genotype.- Financial revanchism, having been organized as a software system, was just beginning to gain momentum and was not yet able to assume full power through the “power of money”, it needed time, greater legitimacy and scale. And the "Power of Power" with the influential participation of secret orders and clans, for a number of their internal reasons, significantly reduced its control effectiveness. - It was at this “historical” moment, with the introduction of new mantissas to the</p>

	<p>brain, that the System, through its Control Complexes, including Alps 2, created all the circumstances for a significant change in the substance of the state of the Ebr Mind of that time, giving it an aggressive, destroying character in everything.- The introduction of this brain genotype was very important for the old Control System, this step of development completed a long stage of the management development process - the preparation of the "Golden Billion". - Awareness of the surrounding "objective reality" by the leading performers from the Conceptual Power was completely oriented and framed in <u>the "Power of Power" program</u> for the entire century and a half. As a result of the implementation of this program, the performers organized and executed a bloody step-by-step path: <u>Revolutionism</u> ; <u>Militant fascism</u> and <u>destructive democratism</u>.- During this period, the entire depth of the sphere of "knowledge" was focused only on the development of technologies for the production of weapons, from the army saber and bayonet, to weapons of mass destruction and their carriers. The state of "powerful revanchism" in the field of management, which lasted until 1990, allowed representatives of brain genotype 442 to fully fulfill their program functions. On the bones and blood of hundreds of millions of people, they managed to prepare an unshakable state of power in all spheres of managing the existence of the world community, create programmatic social and managerial structures of a local and global plan, ensure the necessary volumes of accumulation and concentration of management of financial resources and circulating produced substitutes in their hands, etc., as well as to prepare a different social position for the future "Golden Million". - Therefore, the period under consideration, due to clearly defined programmatic changes in performing states, should be divided into three phases: the first phase 1841-1904 - <u>REVOLUTIONISM</u></p> <p>the second 1904 - 1946 - <u>MILIAN T FASCISM</u></p> <p>third 1946 - 1990 - <u>DESTRUCTIVE DEMOCRATISM</u></p>
<p>1841 – 1904 - <u>REVOLUTIONISM</u></p>	<p>- The publication of the "Manifesto of the Communist Party", the uprising in Paris, the civil war in the United States, the organization of the 1st International, the assassination attempt on the Russian tsar and</p>

	<p>much more - these were organized and implemented program processes of the old System. - At the end of December 1904, the Alps Control Complex deprived the "top" of the state of power throughout the former composition of the executive class of performers. - There was a process of replacing the control teams, namely, the previous ruling genotype, which had lost its program managerial function, was replaced by another composition that acquired this function at a different program-determining level, i.e., through brain genotype 442. - The new governing power state, through the management servers, for the performers of the revolutionary governing estate on the territory of Russia, was provided in Easter 1917.</p>
<p>1904– 1946 – <u>MILITARY FASCISM</u></p> <p>1929 - 1946</p>	<p>- On the part of the System, a significant program correction and targeted reorientation of all control processes were made, including the program performance states "needs, labor and work." - February Revolution, October Revolution, World War I, seizure of power by the Nazis in Germany and Italy, world war, etc. - program processes performed by the old System Program <u>process of a performing nature for</u> people 1934, then moved on to the Second World War. - By May 1945 and the Victory Day holiday on 09 May is also a program process, the second phase of this period was coming to an end. - All managerial corrections of program conditions were completed by the Control Complexes; the processes of territorial allocation for the implementation of the general program management process of two special target spheres of being are fixed - capitalist and socialist.</p>
<p>1946 – 1990 - <u>DESTRUCTIVE DEMOCRATISM</u></p>	<p>- During the period of Easter 1946, the general state of the System management was switched to the final phase of the implementation of the program processes of this stage. - to carry out and complete the mutually regulated antagonistic phenomenon of the program development of two special target spheres of being - capitalist and socialist, as a single controlled embodiment of the development process of brain genotype 441. - The introduction of elements of liberalism as the basic basis for constructing structures in the sphere of power. - The target basis for the socialist sphere of life was the introduction of elements of democracy, with the appropriate construction of management and the entire social structure. To complete the generalized preparation for the transition</p>

to a unified system of structures of authority and control on a liberal democratic basis, which would provide the basis for control at the next stages of the development of brain genotypes; - To bring the controllability of the World Financial System, organized on the basis of the introduced derivative values from a conditional tradable substitute, into a state of target harmony with the basic foundations of the program process of the World Control in the interests of connecting into a single controlled state of "the power of money and the power of power", to complete preparations for the transition to a new stage of development; - The digital basis for constructing the structure of the System's control information, through the provided knowledge without gaining a deep understanding of its essence, to be introduced through the technological essence, as the basic basis of digital technologies, in the interests of replacing part of the brain functions and preparing for the transition to a different level of separate control of genotypes from the next stage - As the third phase of this stage was completed, i.e., by the time the performing states of "need" matured to the level of complete readiness, everything jointly acquired was disassembled and distributed according to the quality of the brain genotypes, the retention process was not only meaningless, but also inevitable - A particularly important final moment in terms of improving the level of cognition, preparing for the transition to a higher level of information management impact and the corresponding change in the executive states of "needs, labor and work" as a whole by the end of this stage - the embodied management was all transferred to the digital technology base in all aspects, in both target areas of being, capitalism and socialism. - The most important qualitative leap was made by the World Financial System, which everywhere switched to electronic managed accounting and electronic money. They, in turn, began to acquire some properties of independence from the nature of the use of the provided volume of the circulating substitute.

- The accumulative and technological preparation of finances for the transition to the next stage in the development of brain genotypes had been completed.

1990 - 2009

The Alps Control Complex (Alps 1 and Alps 2) completed its perfection, ensuring by the end of 1989 the completion of the final stage in the formation of the "Golden Billion" (brain genotype 44). - Full control over the main material values of the planet, including a circulating substitute, by representatives of brain genotypes 44 and partially 42. - The transition to the next and final stage - the development of the 46th brain genotype, the so-called "Golden Million". - In 1990, the California Control Complex began to work in the active phase, which laid the foundation for the introduction of the new brain genotype 461. The main server for managing these processes for Russia was an object located in St. Petersburg. - The program goals in the development of this brain genotype were aimed at giving a higher level of energy biogenesis to the "shirt", focused on a significant increase in their biological life, giving them more advanced brain parameters, by setting other functional mantissas and a certain increase in the brain octave. - The California Control Complex, according to the program, was supposed to conduct a personalized formation of an object mind for individuals or limited groups of them, bringing its level and state in line with their program functions. Such a process was supposed to significantly change a lot in terms of their power-social state and position, provide a special legal basis for their existence and performing program actions on the conditions of an indisputable legitimate state of "FAS", as power from the Almighty, accompany and ensure the cleansing of the entire power pyramid for program actions. "Golden Million". - In April 2001, the Program for the development of individuals with the imputed brain genotype 46 (462-466) was completely eliminated, as having not taken place by its incarnation. This significantly influenced the correction of the performing actions of individuals at all levels of the ruling class of that time (at the state, sacred-clan, international administrative, confessional and military-power levels of a local and international scale). The existing performing circumstance radically changed the flow, or rather, the non-fulfillment of events previously planned by the old System within the framework of the Goal Vector of Purpose of phenomena, actions and events that it no longer controls. The Third World War formed by them (since

August 2012), as a function laid down earlier in the program event process to eliminate all individuals who did not belong to the brain genotype 4XX, was no longer destined to take place at all, despite all the efforts and attempts of that time! Accompaniment from the old System on this "important event episode" no longer existed! - 2006 was the beginning of the formation of the "golden million", that is, those who had ideal protection and direct connection with the Ebrov Control System. The rest were not needed and could be destroyed (some could be left for maintenance). Reincarnation was no longer needed, and neither was the mother with the baby, since the time of life would be regulated by the Ebr Control System and the "golden million" will live forever, owning everything that was captured. No revolutions, no terrorists (for the transitional period it was necessary to form the necessary number of power structures to destroy them). Some, having information about the formation of a new protection and the "golden million" since 2007.04.03, were in a hurry to legitimize their rule from that day on (Ukraine). The historically consistent process of forming a society led to the emergence of the Antichrist, that is, not subject to reincarnation. After the introduction of the new protection, there was no need to support fairy tales about Christ (there would be no one to tell them to). But the chosen "golden million" did not understand one thing, that only their "shirts" would remain elected, and the brain would be that of the Ebrov million that is in the Sun. But these were the plans of the EBRS in 2006. It was these plans that were disseminated among the Jews through the supra-Jewish priesthood.

- In March 2008, the EBR control system was destroyed. There have been serious systemic failures in all the Control Complexes of the old System (the restoring native Earth Control System intervened), which led to irreversible processes and not only in accompanying and providing program actions for performers, but also in the development of brain genotypes.

Now nothing prevents the restored Earth Control System from cleaning up all the results of the EBR

	impact on the planet EARTH and the surrounding space.
<b>Programs</b> <b>alien control system</b>	<b>Summary</b>
<b>0 AD - 1840 A.D.</b>	<b>Formation of the "Golden Billion" - The intermediate group of the "Golden Billion" began to form from the year 0 of the new era. At the same time, representatives of this group already had a certain connection with the brain of the atmosphere, located in a layer at a depth of -4,400 to -2,200 m. They could have up to 12 language translators in the brain to communicate with other ethnic groups, began to receive the primary necessary information for "creation" and "implementation" of new technical means, improving their social arrangement, forming their own societies and structures for managing them, deploying primitive, but their own economic systems, etc. Societies began to appear, form and improve, states were formed. - Historically, i.e., since the introduction of control frequencies for the "Golden Billion", namely from the year 0 A.D., specialized terminals began to be built on Earth in large quantities - churches, RC churches, mosques, Buddhist temples and temples of science.- When creating an information network, information broadcasting concentrators in the form of balls were initially placed in some nodes of the Hartman zone. The diameter of the ball is from 2 to 33 cm, it had the properties of a piezoelectric element. It was over such a ball that it was necessary to build a church. By 1000 A.D. the number of such concentrators was 3,260 balls, before Easter 2009 their number did not exceed 1,000 units, by now they are no longer active in the active program control state. On the surface above such a concentrator, the construction of a specific cult structure was built, the total number of which, i.e., "correct" churches, temples and mosques should not exceed the number of working concentrators.</b>
<b>500 years old</b> <b>1500 – 2000</b>	<b>- Conditions had to be created for the formation of such a human genotype that would be under the full influence of an alien Control System. - At one of the stages of this program, in 1845, the creation of a radiation web was completed (the most complex construction of energy grids in the “-4,400 m + 12,400 m” layer) enclosing the earth. After that, only those</b>

<p><b>(voiced by Nostradamus)</b></p>	<p>only those who could be controlled using the properties of the web and such a "Development Program" that would no longer allow a return to other ways of Brain development, were to remain on Earth. - People (and animals) who had a connection with such a web were conventionally called "electronics, i.e., with a chip in their "shirt" (according to the old program).</p>
<p><b>Cosmopolitanism - 100 year old 1888 - 1999</b></p>	<p>The program of cosmopolitanism had the following goals: 1. Establish a unified financial management. 2. Installation of a single ideology for all brain genotypes 421 (Ararat), 441 (Mont Blanc, Alps) and a single system for perceiving information by creating legends, "archaeological" miracles, destroying all structures and carriers of a different ideology. 3. Development and creation of a single mechanism for managing society, testing technologies for managing societies capitalism, fascism, democracy, liberal democracy, socialism, and so on.</p> <p>4. Ensuring control over all raw materials.</p> <p>5. Preparation of conditions for the arrival of the Ruler of the Earth (Moshiach).</p>
